TO WHOM IT MAY CONCERN

Re; Letter of recommendation for Inspiration Interior Design for cooperation in Residential projects

Please allow this letter to serve as a recommendation for Inspiration Interior Design company and its manager Mrs. Parastoo Jafari, for cooperating with our company in several High -End Single Family projects in West Vancouver and North Vancouver.

Our company has been working with Inspiration Interior Design for the last 3 years, in several projects, where they acted as the building designer, interior designer and project manager , and where they have always directly assisted the construction and application of the design at the job site.

The projects were new build houses of about 7000 S.F., with all the complications of an High-End building using new technologies and contemporary materials.

Parastoo Jafari has a Ph.D and a master degree in architecture and has an extensive experience working with variety of construction systems and materials.

Parastoo's attention to details, ability to understand issues, flexibility, work ethics and can do attitude has always resulted in delivering a quality work .

Inspiration Interior Design can always use these projects as references for their successful work and we highly recommend them for any professional Residential Design and Project Management.

We would always be pleased to provide a reference for the above company, if required.

Sincerely,

Afshin Tajbakhsh

Afdon Contracting

A handwritten signature in dark ink, appearing to read "Afshin Tajbakhsh", is written over a horizontal line. The signature is fluid and cursive.
